## WPT 1000

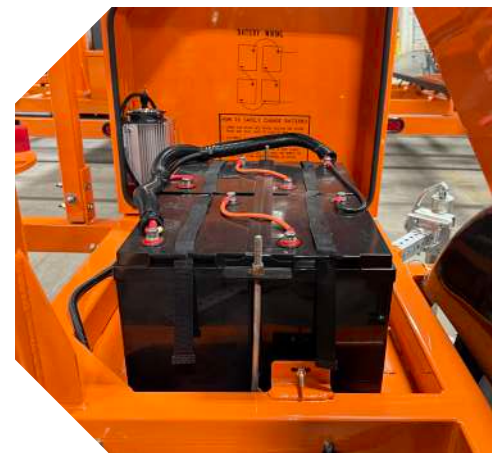

## CONTINUOUS, CONNECTED PROTECTION SAVES LIVES.

### WORKERS PRESENT TRAILER

The WPT 1000 Workers Present Trailer from Hill & Smith protects worksite personnel by alerting motorists that an active work zone is occupied. It employs state-of-the-art technology and multiple checks and balances to ensure smooth trouble-free operation.

Our touchscreen GUI and remote operation option ensure ease of use and safe operation from any location, enhancing the user experience. Constant system monitoring and maintenance-free batteries enhance the ability to operate the system while minimizing the maintenance requirements.

It's what you've come to expect from the only manufacturer of transportation safety products that combines Integration + Intelligence to solve problems and increase passenger and worker safety.

### PRODUCT FEATURES

- Battery bank sized to provide continuous operation for up to 21 days
