### ROADQUAKE™ 2F CRIB™ FEATURES:

CRIB is a fully integrated cargo carrier designed specifically for the safe transport, deployment, removal, storage, and safekeeping of RQ2F.

CRIB Carrier Sizes:

- » **CRIB-6** holds six RQ2F
- » **CRIB-9** holds nine RQ2F
- » **CRIB-12** holds twelve RQ2F

Each CRIB carries a multiple of three strips, enough for the deployment and retrieval of up to four, three-strip arrays.

- » Shortens workers' time in traffic to deploy and retrieve strips, compared to manual handling.
- » Deployment and removal of RQ2F can be a one-person job.
- » CRIB mounts to exterior of the vehicle. Strips do not consume space in vehicle.
- » Allows for easier placement of RQ2F in alignment with the deployment location.
- » CRIB eliminates the inverted installation of RQ2F
